

PROFILE SUMMARY

Second-year Computer Science student at Bennett University simultaneously pursuing a BS in Data Science from IIT Madras. Experienced in shipping production-quality web applications — with **9 deployed projects** across full-stack, AI-driven platforms, UI/UX, and automation. Combines deep technical fluency with a builder's mindset and the ability to lead teams from ideation to deployment.

EDUCATION

Bennett University

B.Tech in Computer Science Engineering

2025 — 2029 · Greater Noida

CGPA: 9.28

IIT Madras

BS in Data Science & Applications

2025 — Present · Remote

CGPA: 8.13

JEE Mains 2025: 94 Percentile · Class 12 (ISC): 95.25% · Class 10 (ICSE): 94.6% — City Montessori School, Lucknow

TECHNICAL SKILLS

LANGUAGES

Python JavaScript Java C++
SQL HTML/CSS

FRAMEWORKS & TOOLS

React Next.js Node.js Vite
Tailwind CSS Express

DATABASES & AI

MongoDB PostgreSQL Firebase
Supabase Pandas NumPy

PROJECTS

ConnectHub — Real-time Communication Platform

[connect-hub-kdpm.onrender.com](#)

React · Node.js · WebSockets · WebRTC · Express

- Engineered a secure, real-time communication platform featuring sub-50ms messaging, channel collaboration, and P2P voice/video calling.
- Implemented low-latency socket communication, live user presence indicators, and rich media sharing.

SwiftFlow — Digital Voting & Governance Portal

[swiftflow-x3pw.onrender.com](#)

Full-Stack · Auth & RBAC · PostgreSQL · Cryptographic Security · REST APIs

- Built a certified electronic voting portal with end-to-end cryptographic ballot integrity and voter identity verification.
- Implemented role-based electoral governance with real-time auditing and confidential ballot casting.

WeatherGPT — AI Weather & Disaster Warning Platform

[weathergpt-xi-five.vercel.app](#)

React · Next.js · Tailwind CSS · Leaflet.js · Open-Meteo API · Web Speech API

- Built an AI-powered weather intelligence workstation with multi-lingual conversational AI (10 Indian languages), STT/TTS, and live GIS radar.
- Engineered sector-specific decision-support for Agriculture, Aviation, Marine & Disaster with 7-day NWP forecasts.

Summit Trek — Himalayan Expedition Platform

[summit-trek-beryl.vercel.app](#)

React · Vite · Tailwind CSS · Role-Based Auth · REST APIs

- Developed a full-stack expedition booking platform with multi-role RBAC (Admin/Guide/Trekker), executive analytics dashboard, and itinerary views.

Brew & Soul — Artisanal Café Portal

[cafe-portal-beta.vercel.app](#)

HTML5 · CSS3 · JavaScript · Vite

- Built a cafe portal with custom animated preloader, dynamic interactive menu with category filters, and a real-time cart system.

PROJECTS (CONTINUED)

Maison Éléance — Luxury E-Commerce Storefront

[boutique-indol.vercel.app](#)

HTML5 · CSS3 · JavaScript · E-Commerce UX · Glassmorphism

- Crafted a premium fashion e-commerce landing page with high-fidelity interactive animations, magnetic hover effects, and a lookbook gallery.
- Implemented interactive shopping cart UI, newsletter signup, and customer testimonials with polished typography.

Jarvis AI Assistant — Desktop Voice Intelligence

[GitHub](#)

Python · PyQt6 · Ollama (Llama 3.2) · Faster-Whisper · System Automation

- Built a multi-threaded local AI desktop assistant with a transparent sci-fi HUD, powered by a local neural core (Ollama Llama 3.2) and real-time STT.
- Integrated autonomous OS script triggers, system controls, and voice-to-text pipeline for hands-free operation.

Antarbhag Foundation — Environmental Education Portal

[antarbhag-website.vercel.app](#)

HTML5 · CSS3 · JavaScript · Social Impact · Responsive Design

- Designed and deployed a social initiative website for Antarbhag Foundation featuring environmental outreach campaigns, volunteer enrollment, and community engagement.

Locus Path — Creative Agency Website

[locus-path-web.vercel.app](#)

HTML5 · CSS3 · JavaScript · Creative Direction · 3D Tilt UI

- Designed and shipped a fully interactive creative agency landing page with magnetic CTA buttons, 3D card tilt mechanics, and smooth scroll animations.
- Multi-section architecture: Services, Process, Portfolio, Testimonials, and Contact — all with custom CSS animations.

KEY HIGHLIGHTS

- > **9 production-grade projects** shipped — 8 live-deployed on Vercel and Render across full-stack, AI, and front-end domains.
- > **Dual-degree** academic track: Bennett University (B.Tech CSE, 9.28 CGPA) + IIT Madras (BS Data Science, 8.13 CGPA).
- > **Full-stack versatility:** Real-time WebSocket/WebRTC systems, AI platforms with multi-lingual voice, cryptographic security, and e-commerce UX.
- > **Strong academic foundation:** JEE Mains 94 Percentile, ISC 95.25%, ICSE 94.6%.
